Myocardium, wall, ventricular, left, and papillary muscle in man, cellular chemical comparison of (Braimbridge et al.), 722
Myxoma, atrial, in siblings (Heydorn et al.), 484
surgical considerations (Kabbani and Cooley), 731

N

Needle biopsy of lung, dissemination of cancer cells by (Nordenström and Björk), 671 (Letter); Reply (Berger), 671
Neointimas cultured in vitro for circulatory assistors. III. Evaluation of antithrombogenic properties (Adachi et al.), 778
Neonate, chylothorax after Bochdalek herniorrhaphy in: treatment with intravenous hyperalimentation (Wiener et al.), 200
Node, sinoatrial, atrial pacemaking site after surgical exclusion of (Sealy et al.), 841
Nodules, pulmonary, solitary, asymptomatic: host survival, tumor size, and growth rate (Steele), 140
l-Norepinephrine, isoproterenol, and glucagon on myocardial gas tensions in animals with coronary artery stenosis, effects of (Furuse et al.), 815

O

Obstruction, esophageal, membranous, simulating atresia with double tracheoesophageal fistula in neonate (Touloukian), 191

Obstruction—Cont'd
to left ventricular inflow by caged-ball prosthetic mitral valve, hemodynamic confirmation of: case report (Shepherd et al.), 252
of right ventricular outflow tract, surgical considerations in (Utley and Roe), 391
Occlusion, balloon, of persistent left superior vena cava in preoperative evaluation of systemic venous return (Freed et al.), 835
One-stage operation for cervicomediastinal cystic hygroma in infancy (Mills and Grosfeld), 608
Open-heart surgery, biochemical changes during surface cooling for deep hypothermia in (Brown et al.), 402
in first year of life (Breckenridge et al.), 58
gastrointestinal bleeding after (Welsh et al.), 738
Operation, Rastelli: its indications and results (McGoon et al.), 65
Orthotopic cardiac prosthesis, development of (Kennedy et al.), 673
Osteomyelitis, sternal, and costochondritis after median sternotomy (Wray et al.), 227
Outflow tract and pulmonary valve, reconstruction of: report of 25 cases (Trusler et al.), 245
ventricular, right, surgical considerations in obstruction of (Utley and Roe), 391
Oxygen saturation versus oxygen tension: case report illustrating their relative values (Martin et al.), 409
Oxygenated blood in femoral and brachial artery perfusion during venoarterial bypass in primates, distribution of (Soeter et al.), 825
Oxygenator, membrane, Landé-Edwards, pediatric application of: continuous perfusion and hypothermic arrest techniques (Wright et al.), 503
left heart bypass with (Byrne and Hughes), 795

P

Pacemaker, permanent, in first month of life for congenital complete heart block, implantation of (Idriss et al.), 851
pulse generator due to design defect, extrusion of (Cohn and Thorson), 323
wires, natural history of (Parsonnet et al.), 315
Pacemaking site, atrial, after surgical exclusion of sinoatrial node (Sealy et al.), 841
Pacing, cardiac, percutaneous, through subclavian vein in children (Groff et al.), 806
Papillary muscle and left ventricular wall myocardium in man, cellular chemical comparison of (Braimbridge et al.), 722
ventricular, left, iatrogenic rupture of (Mary et al.), 519
right, anomalous, surgical repair of complete atrioventricular canal with anterior common leaflet attached to (Pacifico and Kirklin), 727
Paraparesis after operation for intrathoracic meningocele: unknown complication (Ammann and Vogt), 453
Patch, aortic, dynamic: experimental hemodynamic studies with permanent ventricular assist device (Phillips et al.), 471
stenosis, pericardial, after Mustard procedure, successful repair of: diagnostic and therapeutic considerations in two patients (Berman et al.), 276
Patent ductus arteriosus, calcified, surgical treatment of (Pifarré et al.), 635
Pediatric application of Landé-Edwards membrane oxygenator: continuous perfusion and hypothermic arrest techniques (Wright et al.), 503
Perforation of esophagus: 30 year review (Berry and Ochsner), 1
Perfusion, artery, femoral and brachial, during venoarterial bypass in primates, distribution of oxygenated blood in (Soeter et al.), 825
continuous, and hypothermic arrest techniques: pediatric application of Landé-Edwards membrane oxygenator (Wright et al.), 503
hemodilution, on alterations in total body potassium, lack of influence of (Clark et al.), 112
systems, extracorporeal, measurement of emboli in (Dutton and Edmunds), 523
Pericardial adhesions, postoperative: role of mild serosal injury and spilled blood (Cliff et al.), 744
intra-, pneumonectomy, cardiac torsion following (Patel et al.), 626
patch stenosis after Mustard procedure, successful repair of: diagnostic and therapeutic considerations in two patients (Berman et al.), 276
tubular graft of superior vena cava in dog, effect of dextran on patency of (Brais et al.), 296
Pericardium simulating acute myocardial infarction, atraumatic rupture of esophagus into: case report (Mansour and Teaford), 458

Pericardium—Cont'd
thoracoabdominal wall, diaphragm, and heart, syndrome of defects of: one-stage surgical repair and analysis of syndrome (Symbas and Ware), 914
Permanent pacemaker in first month of life for congenital complete heart block, implantation of (Idriss et al.), 851
Plasma angiotensin II in experimental coarctation of aorta, activity of (Sealy et al.), 283
during and after cardiac surgery, patterns of total and ionized calcium and other electrolytes in (Moffitt et al.), 751
proteins and colloid osmotic pressure during and after cardiopulmonary bypass, relationship between (Webber and Garnett), 234
Pleura, recurrent benign fibrous mesothelioma of (Utley et al.), 830
Pneumonectomy, herniation of heart after (Dippel and Ehrenhaft), 207
intrapericardial, cardiac torsion following (Patel et al.), 626
Polyethylene catheters from pulmonary artery, simple method for removal of (Barman), 792
Positive end-expiratory pressure: physiology, indications, and contraindications (Ashbaugh and Petty), 165
Potassium, body, total, lack of influence of hemodilution perfusion on alterations in (Clark et al.), 112
Preservation of canine lung at subzero temperatures, studies on (Okaniwa et al.), 180
Pressure, airway, positive, continuous, after open intracardiac operations in infants, spontaneous breathing with (Stewart et al.), 37
end-expiratory, positive: physiology, indications, and contraindications (Ashbaugh and Petty), 165
filling, ventricular, left, after aorto-coronary grafting (Oldham et al.), 343
osmotic, colloid, and plasma proteins during and after cardiopulmonary bypass, relationship between (Webber and Garnett), 234
Primary mediastinal seminoma: case report and review of literature (Besznyák et al.), 930
Prosthesis(es), bifurcation, tracheal, Silastic, with subterminal Dacron suture cuffs (Borrie et al.), 956
cardiac, orthotopic, development of (Kennedy et al.), 673
Starr-Edwards, composite-seat, cloth-covered, aortic valve replacement with: review of 32 months of clinical experience (Arrigoni et al.), 376

Prosthesis(es)—Cont'd
valve, aortic, trileaflet, Silastic, design and durability test of (Mohri et al.), 576
mitral, Björk-Shiley, unusual complication after insertion of: early disc dislodgment (Messmer et al.), 386
valvular, leaflet, methods of design of. I. Stresses in mitral valve leaflets in health and disease (Clark and Sutera), 890
Prosthetic mitral valve, caged-ball, hemodynamic confirmation of obstruction to left ventricular inflow by: case report (Shepherd et al.), 252
Proteins, plasma, and colloid osmotic pressure during and after cardiopulmonary bypass, relationship between (Webber and Garnett), 234
Pulmonary arterial blood flow, lobar, in reimplanted canine lungs (Wagner et al.), 171
artery aneurysm associated with atrial septal defect and absent pulmonary valve (Zajtchuk et al.), 699
after debanding (Dobell et al.), 32
right, tetralogy of Fallot with aortic origin of: surgical implications (Kuers and McGoon), 327
simple method for removal of polyethylene catheters from (Barman), 792
autotransplantation, unilateral, experimental, simplified (Moss), 899
blood flow occurring during acute rejection of lung allograft, serial changes in (Pio Roda et al.), 88
infarction, intraoperative lobar torsion producing (Schuler), 951
injury secondary to extracorporeal circulation: ultrastructural study (Ratliff et al.), 425
metastases, multiple, from adenoid cystic carcinoma of ceruminous glands of external auditory canal: case report and review of literature (Koopot et al.), 909
nodules, solitary, asymptomatic: host survival, tumor size, and growth rate (Steele), 140
stenosis, intracardiac repair of single ventricle with (Ionescu et al.), 602
valve, absence of, and respiratory distress, surgical management of young infants with tetralogy of Fallot (Litwin et al.), 552
and outflow tract, reconstruction of: report of 25 cases (Trusler et al.), 245
vein–coronary artery fistula: postoperative "coronary steal" (Barman et al.), 152

Pumping, balloon, intra-aortic, protection of aortic arch and subclavian artery during (O'Rourke and Shepherd), 543

R

Radiation, interoperative, for treatment of clinically operable, nonresectable bronchogenic carcinoma, case for (Lawton), 449
Radionuclide angiography in diagnosis of aortocaval fistula: report of two cases (Birnholz), 292
Rastelli operation: its indications and results (McGoon et al.), 65
Reconstruction of cardiac valves, evaluation of physical properties of biological tissues that can be used for (Ramos et al.), 359
of pulmonary valve and outflow tract: report of 25 cases (Trusler et al.), 245
of superior vena cava in fibrosing mediastinitis (Garcia et al.), 547
Reconstructive surgery, coronary, direct, for angina, early and late results of (Hammond and Poirier), 127
Rectus sheath cardiac valve, autologous. III. Design and physical properties (Athanasuleas et al.), 118
Regeneration of lung in dog (Brugarolas and Takita), 187
Regurgitation, tricuspid, severe, after repair of ventricular septal defect (Fisher et al.), 702
Reimplanted canine lungs, lobar pulmonary arterial blood flow in (Wagner et al.), 171
lung, circulation in: scintigraphic and cineangiographic study (Stolf et al.), 620
Rejection, acute, of lung allograft, serial changes in pulmonary blood flow occurring during (Pio Roda et al.), 88
response to canine lung allotransplants, cellular characteristics of (Fujimura et al.), 438
Repair, hernia, hiatal, Belsey, bloating and inability to vomit after: experimental study with dogs (Rasche and Butterfield), 646
Replacement, valve, aortic, with cloth-covered composite-seat Starr-Edwards prosthesis: review of 32 months of clinical experience (Arrigoni et al.), 376
in patient with Dubin-Johnson syndrome (Miscia et al.), 559
in relation to preoperative heart size, prognosis of (Braun et al.), 381
mitral, with autologous fascia lata: results of morphologic examinations (Bernhard et al.), 94
Replacement, valve, mitral—Cont'd
late causes of death after: analysis of 36 cases (Joassin and Edwards), 255
with preserved cadaveric aortic homografts (Oh et al.), 712
Serratia marcescens bacteremia originating from catheter line in left artium after (Reyes et al.), 241
Resecting aortic arch aneurysms distal to innominate artery, simplified technique for: case report (Groves and Beven), 643
Resection and anastomosis in puppies, effect of tension on tracheal growth after (Maeda and Grillo), 658
tracheal, through manubrium-splitting incision (Mengoli), 963
Respiratory distress, surgical management of young infants with tetralogy of Fallot, absence of pulmonary valve, and (Litwin et al.), 552
Return, venous, systemic, balloon occlusion of persistent left superior vena cava in preoperative evaluation of (Freed et al.), 835
Revascularization, myocardial: comparison of operability and surgical results in diabetic and nondiabetic patients (Chychota et al.), 856
successful, after ventricular fibrillation induced by treadmill exercise (Cline et al.), 802
Rib, first, associated with laceration of subclavian artery, fracture of: report of case and review of literature (Galbraith et al.), 649
Ring, vascular, unusual sequel to operative intervention for (Shumacker and Burford), 124
Runoff, early, in myocardial arterial implants, nature of: morphologic and hemodynamic reappraisal (Chiu and Scott), 768
Rupture, atraumatic, of esophagus into pericardium simulating acute myocardial infarction: case report (Mansour and Teaford), 458
iatrogenic, of left ventricular papillary muscle (Mary et al.), 519

S

Saturation, oxygen, versus oxygen tension: case report illustrating their relative values (Martin et al.), 409
Scanning electron microscopy, analysis of clinical and experimental specimens by: morphology of blood-surface interaction on intra-aortic balloons (Schoen et al.), 304
of canine lung transplants (Kondo et al.), 940

Scintigraphic and cineangiographic study: circulation in reimplanted lung (Stolf et al.), 620
Semilunar valve homograft to mitral area, forty-two month follow-up of: report of case (Coleman et al.), 887
Seminoma, mediastinal, primary: case report and review of literature (Besznyák et al.), 930
Septal defect, atrial, and absent pulmonary valve, pulmonary artery aneurysm associated with (Zajtchuk et al.), 699
ventricular, and aortic insufficiency, long-term evaluation of aortic valvuloplasty for (Spencer et al.), 15
severe tricuspid regurgitation after repair of (Fisher et al.), 702
Septectomy, atrial (Mulder), 435
Sequestration, bronchopulmonary (Holstein and Hjelms), 462
Serosal injury, mild, and spilled blood, role of: postoperative pericardial adhesions (Cliff et al.), 744
Serratia marcescens bacteremia originating from catheter line in left atrium after mitral valve replacement (Reyes et al.), 241
Serum enzyme studies in patients undergoing direct coronary artery surgery, significance of (Bolooki et al.), 863
Siblings, atrial myxoma in (Heydorn et al.), 484
Sinoatrial node, atrial pacemaking site after surgical exclusion of (Sealy et al.), 841
Sinus, coronary, elongation and exteriorization of: surgical technique in laboratory animals. Preliminary report (Kenaan et al.), 155
Solitary pulmonary nodules, asymptomatic: host survival, tumor size, and growth rate (Steele), 140
Standards, minimal, in cardiovascular surgery, guidelines for. Prepared by Subcommittee on Hospital Program Review of Cardiovascular Committee of American College of Surgeons (Blades), 467
Starr-Edwards prosthesis, composite-seat, cloth-covered, aortic valve replacement with: review of 32 months of clinical experience (Arrigoni et al.), 376
Stenosis, aortic, calcific, long-term results of débridement valvotomy for (Hill), 708
artery, coronary, effects of isoproterenol, *l*-norepinephrine, and glucagon on myocardial gas tensions in animals with (Furuse et al.), 815
patch, pericardial, after Mustard procedure, successful repair of: diagnostic and therapeutic considerations in two patients (Berman et al.), 276
pulmonary, intracardiac repair of single ventricle with (Ionescu et al.), 602
Sternotomy, median, sternal osteomyelitis and costochondritis after (Wray et al.), 227
Structural alterations in tissue cardiac valves implanted in patients and in calves (Yarbrough et al.), 364
Subclavian artery, fracture of first rib associated with laceration of: report of case and review of literature (Galbraith et al.), 649
–coronary artery bypass in man (Aguam et al.), 869
vein in children, percutaneous cardiac pacing through (Groff et al.), 806
Subzero temperatures, studies on preservation of canine lung at (Okaniwa et al.), 180
Surgery, artery, coronary, direct, significance of serum enzyme studies in patients undergoing (Bolooki et al.), 863
cardiac, Candida endocarditis after: clues to earlier detection (Seelig et al.), 583
cardiovascular, guidelines for minimal standards in. Prepared by Subcommittee on Hospital Program Review of Cardiovascular Committee of American College of Surgeons (Blades), 467
open-heart, gastrointestinal bleeding after (Welsh et al.), 738
reconstructive, coronary, direct, for angina, early and late results of (Hammond and Poirier), 127
valve, heart, postoperative blood loss after extracorporeal circulation for (Garcia et al.), 487
mitral, late hemodynamic studies after (Hawe et al.), 351
Survival of canine heart after anoxic arrest, influence of delayed defibrillation on (O'Connor et al.), 872
Suture cuffs, Dacron, subterminal, Silastic tracheal bifurcation prosthesis with (Borrie et al.), 956
Syndrome of defects of thoracoabdominal wall, diaphragm, pericardium, and heart: one-stage surgical repair and analysis of syndrome (Symbas and Ware), 914
Dubin-Johnson, aortic valve replacement in patient with (Miscia et al.), 559
Systemic venous return, balloon occlusion of persistent left superior vena cava in preoperative evaluation of (Freed et al.), 835
Systole–ventricular systole interval, atrial, and left ventricular function, relationship between (Scully et al.), 684

T

Tamponade, heart, left, chronic (Simpkin et al.), 531

Tension(s), gas myocardial, in animals with coronary artery stenosis, effects of isoproterenol, *l*-norepinephrine, and glucagon on (Furuse et al.), 815
oxygen, versus oxygen saturation: case report illustrating their relative values (Martin et al.), 409
on tracheal growth after resection and anastomosis in puppies, effect of (Maeda and Grillo), 658
Tetralogy of Fallot, absence of pulmonary valve, and respiratory distress, surgical management of young infants with (Litwin et al.), 552
with aortic origin of right pulmonary artery: surgical implications (Kuers and McGoon), 327
in infancy, total correction of (Starr et al.), 45
Thoracic, intra-, auxiliary heart transplant "in parallel," synchronized (Suros and Woods), 415
meningocele, paraparesis after operation for: unknown complication (Ammann and Vogt), 453
Thoracoabdominal wall, diaphragm, pericardium, and heart, syndrome of defects of: one-stage surgical repair and analysis of syndrome (Symbas and Ware), 914
Thrombogenic, anti-, properties, evaluation of, III. Neointimas cultured in vitro for circulatory assistors (Adachi et al.), 778
Tissue(s), biological, that can be used for reconstruction of cardiac valves, evaluation of physical properties of: experimental study (Ramos et al.), 359
cardiac valves implanted in patients and in calves, structural alterations in (Yarbrough et al.), 364
Torsion, cardiac, following intrapericardial pneumonectomy (Patel et al.), 626
lobar, intraoperative, producing pulmonary infarction (Schuler), 951
Trachea, chondrosarcoma of: report of case and five-year follow-up (Fallahnejad et al.), 210
Tracheal bifurcation prosthesis, Silastic, with subterminal Dacron suture cuffs (Borrie et al.), 956
growth after resection and anastomosis in puppies, effect of tension on (Maeda and Grillo), 658
resection through manubrium-splitting incision (Mengoli), 963
tubes, cuffed, diagnosis and treatment of tracheoesophageal fistula caused by (Thomas), 612
Tracheoesophageal fistula(s) caused by cuffed tracheal tubes, diagnosis and treatment of (Thomas), 612
double, in neonate, membranous esophageal obstruction simulating atresia with (Touloukian), 191
multiple, and esophageal atresia in twin, laryngotracheoesophageal cleft associated with (Mahour et al.), 223
Tract, outflow, and pulmonary valve, reconstruction of: report of 25 cases (Trusler et al.), 245
ventricular, right, surgical considerations in obstruction of (Utley and Roe), 391
Transplant(s), allo-, lung, canine, cellular characteristics of rejection response to (Fujimura et al.), 438
lung, canine, scanning electron microscopy of (Kondo et al.), 940
"in parallel," heart, auxiliary, intrathoracic, synchronized (Suros and Woods), 415
Transplantation, auto-, pulmonary, unilateral, experimental, simplified (Moss), 899
Transposition of great arteries and closing ventricular septal defect, tricuspid atresia with: successful palliation by banding of pulmonary artery and creation of aorticopulmonary window (Neches et al.), 538
Trauma, penetrating, surgical management of intracardiac defects due to (Hutchinson et al.), 103
Tricuspid atresia with transposition of great arteries and closing ventricular septal defect: successful palliation by banding of pulmonary artery and creation of aorticopulmonary window (Neches et al.), 538
regurgitation, severe, after repair of ventricular septal defect (Fisher et al.), 702
Trileaflet aortic valve prostheses, Silastic, design and durability test of (Mohri et al.), 576
Tumor(s), lung, mucoepidermoid (Axelsson et al.), 902
lymphatic, of mediastinum in children, surgical management of (La Franchi and Fonkalsrud), 8
mediastinal: review of 186 cases (Rubush et al.), 216
size, growth rate, and host survival: asymptomatic solitary pulmonary nodules (Steele), 140

U

Unilateral pulmonary autotransplantation, experimental, simplified (Moss), 899

V

Valve(s), cardiac, evaluation of physical properties of biological tissues that can be used for reconstruction of (Ramos et al.), 359
sheath, rectus, autologous. III. Design and physical properties (Athanasuleas et al.), 118
tissue, implanted in patients and in calves, structural alterations in (Yarbrough et al.), 364
homograft, semilunar, to mitral area, forty-two month follow-up of: report of case (Coleman et al.), 887
leaflets, mitral, in health and disease, stresses in. I. Methods of design of leaflet valvular prostheses (Clark and Sutera), 890
mitral, prosthetic, caged-ball, hemodynamic confirmation of obstruction to left ventricular inflow by: case report (Shepherd et al.), 252
prosthesis(es), aortic, trileaflet, Silastic, design and durability test of (Mohri et al.), 576
mitral, Björk-Shiley, unusual complication after insertion of: early disc dislodgment (Messmer et al.), 386
pulmonary, absence of, and respiratory distress, surgical management of young infants with tetralogy of Fallot (Litwin et al.), 552
and outflow tract, reconstruction of: report of 25 cases (Trusler et al.), 245
replacement, aortic, with cloth-covered composite-seat Starr-Edwards prosthesis: review of 32 months of clinical experience (Arrigoni et al.), 376
in patient with Dubin-Johnson syndrome (Miscia et al.), 559
in relation to preoperative heart size, prognosis of (Braun et al.), 381
mitral, with autologous fascia lata: results of morphologic examinations (Bernhard et al.), 94
late causes of death after: analysis of 36 cases (Joassin and Edwards), 255
with preserved cadaveric aortic homografts (Oh et al.), 712
Serratia marcescens bacteremia originating from catheter line in left atrium after (Reyes et al.), 241
surgery, heart, postoperative blood loss after extracorporeal circulation for (Garcia et al.), 487
mitral, late hemodynamic studies after (Hawe et al.), 351
Valvotomy, débridement, for calcific aortic stenosis, long-term results of (Hill), 708
Valvuloplasty, aortic, for aortic insufficiency and ventricular septal defect, long-term evaluation of (Spencer et al.), 15
Vascular ring, unusual sequel to operative intervention for (Shumacker and Burford), 124
Vascularization, re-, myocardial: comparison of operability and surgical results in diabetic and nondiabetic patients (Chychota et al.), 856
successful, after ventricular fibrillation induced by treadmill exercise (Cline et al.), 802
Vein–coronary artery fistula, pulmonary: postoperative "coronary steal" (Barman et al.), 152
subclavian, in children, percutaneous cardiac pacing through (Groff et al.), 806
Vena cava, superior, in dog, effect of dextran on patency of pericardial tubular graft of (Brais et al.), 296
in fibrosing mediastinitis, reconstruction of (Garcia et al.), 547
left, persistent, in preoperative evaluation of systemic venous return, balloon occlusion of (Freed et al.), 835
Venoarterial bypass in primates, distribution of oxygenated blood in femoral and brachial artery perfusion during (Soeter et al.), 825
Venous repair in canine hind limb, hemodynamics of (Wright and Swan), 195
return, systemic, balloon occlusion of persistent left superior vena cava in preoperative evaluation of (Freed et al.), 835
Venting, ventricular, left, simplified (Sproul et al.), 433
Ventricle, single, with pulmonary stenosis, intracardiac repair of (Ionescu et al.), 602
Ventricular assist device, permanent, experimental hemodynamic studies with: dynamic aortic patch (Phillips et al.), 471
assistance, mechanical, experimental, cardiac performance and myocardial contractility after (Melvin et al.), 876
and atrial septal defects in three-day-old infant, correction of type B aortic arch interruption with (Murphy et al.), 882
bypass, left, for ventricular failure: technical and hemodynamic considerations (Lefemine et al.), 758
fibrillation, acetyl strophanthidin-induced, effect of biventricular mechanical massage after (McNeill et al.), 479
induced by treadmill exercise, successful myocardial revascularization after (Cline et al.), 802
filling pressure, left, after aorto-coronary grafting (Oldham et al.), 343

Ventricular—Cont'd
hypertrophy, left, stable, in dog: experimental production, time course, and natural history (O'Kane et al.), 264
inflow, left, by caged-ball prosthetic mitral valve, hemodynamic confirmation of obstruction to: case report (Shepherd et al.), 252
outflow tract, right, surgical considerations in obstruction of (Utley and Roe), 391
papillary muscle, left, iatrogenic rupture of (Mary et al.), 519
right, anomalous, surgical repair of complete atrioventricular canal with anterior common leaflet attached to (Pacifico and Kirklin), 727
septal defect and aortic insufficiency, long-term evaluation of aortic valvuloplasty for (Spencer et al.), 15
closing, and transposition of great arteries, tricuspid atresia with: successful palliation by banding of pulmonary artery and creation of aorticopulmonary window (Neches et al.), 538

Ventricular septal defect—Cont'd
severe tricuspid regurgitation after repair of (Fisher et al.), 702
systole interval, atrial systole-, and left ventricular function, relationship between (Scully et al.), 684
venting, left, simplified (Sproul et al.), 433
wall myocardium, left, and papillary muscle in man, cellular chemical comparison of (Braimbridge et al.), 722

W

Wires, pacemaker, natural history of (Parsonnet et al.), 315

of descending thoracic aorta, reappraisal of adjuncts to avoid ischemia in treatment of (Crawford and Rubio), 693
dissecting, of aorta, acute thromboembolism associated with: two case reports (Lévy et al.), 82
false, of internal mammary artery: peristernal wiring in closure of median sternotomy (Martin et al.), 145
of left ventricle after repair of penetrating injury (Morales et al.), 632
sinus of Valsalva, surgical correction of (Howard et al.), 420
Angina pectoris, preinfarction: surgical emergency (Goodin et al.), 934
Angiographic and intraoperative assessment of aortic regurgitation, hemodynamic clues to discrepancy between (Armstrong et al.), 265
Anomalous origin of left coronary artery in adult, complete repair of (Thomas et al.), 439
from pulmonary artery in adult: report of case treated by aorto-coronary bypass with saphenous vein (Akhtar et al.), 112
pulmonary venous drainage, total, in infancy, correction of (Breckenridge et al.), 447
with new surgical technique, successful correction of (Kawashima et al.), 959
systemic venous return, total, successful repair of complete atrioventricular canal associated with dextroversion, common atrium, and (Danielson et al.), 817
Anoxic cardiac arrest: experimental and clinical study of its effects. Part I (Iyengar et al.), 722
Antiarrhythmic effect in anesthetized dogs, absence of: helium (Holland et al.), 478
Antibiotic administration in vascular reconstructive surgery, evaluation of combined routes of: study of local plus parenteral administration of cephaloridine in dogs (Baker et al.), 131

*July, pp. 1-166; August, pp. 167-332; September, pp. 333-504; October, pp. 505-676; November, pp. 677-844; December, pp. 845-1014.

Antigen(s), carcinoembryonic, in patients with carcinoma of lung (Vincent and Chu), 320
cell, tumor, and to nonspecific antigens, delayed cutaneous hypersensitivity reactions to: prognostic significance in patients with lung cancer (Wells et al.), 557
Aorta, acute thromboembolism associated with dissecting aneurysm of: two case reports (Lévy et al.), 82
coarctation of, intrauterine production of: studies of hemodynamics and collateral aortic circulation in newborn animals (Haller et al.), 343
descending, for correction of interrupted aortic arch, anastomosis of subclavian artery to (Barbero Marcial et al.), 653
proximal, in Marfan's syndrome, surgery of (Crosby et al.), 75
simple technique and device to provide bloodless operative field in coronary artery surgery without cross-clamping (Riahi et al.), 974
thoracic, descending, reappraisal of adjuncts to avoid ischemia in treatment of aneurysms of (Crawford and Rubio), 693
Aortic arch, double, internal coarctation associated with (Raju et al.), 192
interrupted, anastomosis of subclavian artery to descending aorta for correction of (Barbero Marcial et al.), 653
with unique mechanism of injury, complete traumatic avulsion of innominate artery from: report of case (Gunnlaugsson et al.), 235
cross-clamping, functional and structural alterations in myocardium during (Stemmer et al.), 754
insufficiency, repair of ventricular septal defect with (Trusler et al.), 394
intra-, balloon assist for postcardiotomy cardiogenic shock (Berger et al.), 906
and mitral leaflets and chordae tendineae, human, fresh and frozen, stress-strain characteristics of (Clark), 202
regurgitation, hemodynamic clues to discrepancy between angiographic and intraoperative assessment of (Armstrong et al.), 265
root, medionecrotic, cystic, aneurysm of: modified surgical approach (Najafi), 71
stenosis, congenital, progress and problems in surgical management of (Bernhard et al.), 404
subcoronary, in dogs, experimental model with left ventricular hypertrophy caused by (Iyengar et al.), 823
valve replacement assessed by cellular biological tests, myocardial deterioration during (Braimbridge et al.), 241
Aorto–coronary artery vein grafts, blocked, problem of: report of three cases with successful treatment by intraventricular arterial implants and omental grafts (Vineberg), 428
bypass operation on cardiac function, objective assessment of effects of (Bolooki et al.), 916
quantitative left ventriculography in immediate postoperative period after (Deal et al.), 1
with saphenous vein, report of case treated by: anomalous origin of left coronary artery from pulmonary artery in adult (Akhtar et al.), 112
Arch, aortic, double, internal coarctation associated with (Raju et al.), 192
interrupted, anastomosis of subclavian artery to descending aorta for correction of (Barbero Marcial et al.), 653
with unique mechanism of injury, complete traumatic avulsion of innominate artery from: report of case (Gunnlaugsson et al.), 235
Arrest, cardiac, anoxic: experimental and clinical study of its effects. Part I (Iyengar et al.), 722
circulatory, and surface-induced deep hypothermia, early correction of congenital heart disease with (Venugopal et al.), 375
fibrillatory, effect of mannitol on performance of isolated canine heart after (Weisfeldt et al.), 290
Arrhythmias, postoperative, new approach to avoid: functional correction of transposition of great arteries (Angelini and Sandiford), 87
Arrhythmic, anti-, effect in anesthetized dogs, absence of: helium (Holland et al.), 478
Arteriosclerotic heart disease, right atrial myxoma and (Hartstein et al.), 965
Arteriosus, truncus, persistent, banding of pulmonary trunk in: rapid subsequent development of inadequate pulmonary blood flow (Friedman and Braitman), 799
Artery(ies) allograft, right atrium–pulmonary, for correction of tricuspid atresia (Stanford et al.), 105
bypass, coronary, cardiac tamponade following dislodgment of left atrial catheter after (Bricker and Dalton), 636
circumflex, prevention of ventricular fibrillation after ligation of (Hiatt et al.), 283
coronary, left, in adult, complete repair of anomalous origin of (Thomas et al.), 439

Artery(ies), coronary, left—Cont'd
from pulmonary artery in adult, anomalous origin of: report of case treated by aorto-coronary bypass with saphenous vein (Akhtar et al.), 112
fistula, coronary, congenital (Sabbagh et al.), 794
great, functional correction of transposition of: new approach to avoid postoperative arrhythmias (Angelini and Sandiford), 87
hyperperfusion, carotid, during open-heart surgery: report of case (Krous et al.), 118
innominate, from aortic arch with unique mechanism of injury, complete traumatic avulsion of: report of case (Gunnlaugsson et al.), 235
and left intrathoracic subclavian, simultaneous avulsion of: case report (Thio et al.), 96
mammary, internal, false aneurysm of: peristernal wiring in closure of median sternotomy (Martin et al.), 145
as free graft (Barner), 219
and splenic implants in canine hearts, functional studies of (Bloomer et al.), 222
subclavian, to descending aorta for correction of interrupted aortic arch, anastomosis of (Barbero Marcial et al.), 653
surgery, coronary, without cross-clamping aorta, simple technique and device to provide bloodless operative field in (Riahi et al.), 974
vein grafts, aorto–coronary, blocked, problem of: report of three cases with successful treatment by intraventricular arterial implants and omental grafts (Vineberg), 428
Artificial heat, stage II problems in project of (Moulopoulos et al.), 662
total, Akutsu, structural alterations in calves implanted with (Henson et al.), 99
lung, implantable, development of (Palmer et al.), 521
Assist, balloon, intra-aortic, for postcardiotomy cardiogenic shock (Berger et al.), 906
Atresia, esophageal, with T-E fistula in two premature infants, delayed repair of: use of jejunostomy as alternative to intravenous alimentation (Firor et al.), 828
tricuspid, operation for correction of (Kreutzer et al.), 613
right atrium–pulmonary artery allograft for correction of (Stanford et al.), 105
Atrial catheter, left, after coronary artery bypass, cardiac tamponade following dislodgment of (Bricker and Dalton), 636
myxoma, right, and arteriosclerotic heart disease (Hartstein et al.), 965
Atrial—Cont'd
pacemaker wires implanted during cardiac operations, experience with (Mills and Ochsner), 878
Atrioventricular canal, complete, associated with dextroversion, common atrium, and total anomalous systemic venous return, successful repair of (Danielson et al.), 817
sequential demand pacing, temporary and permanent, surgical experience with (Fields et al.), 865
Atrium, common, successful repair of complete atrioventricular canal associated with dextroversion, total anomalous systemic venous return, and (Danielson et al.), 817
–pulmonary artery allograft, right, for correction of tricuspid atresia (Stanford et al.), 105
Autologous superior vena cava as material for valve replacement (Williams et al.), 952
A-V sequential demand pacing, temporary and permanent, surgical experience with (Fields et al.), 865
Avulsion, simultaneous, of innominate and left intrathoracic subclavian arteries: case report (Thio et al.), 96
traumatic, complete, of innominate artery from aortic arch with unique mechanism of injury: report of case (Gunnlaugsson et al.), 235

B

Balloon assist, intra-aortic, for postcardiotomy cardiogenic shock (Berger et al.), 906
Banding of pulmonary trunk in persistent truncus arteriosus: rapid subsequent development of inadequate pulmonary blood flow (Friedman and Braitman), 799
Bender-Gestalt visual motor test scores, oxygen transfer, and microemboli counts: Landé-Edwards membrane oxygenator during heart surgery (Carlson et al.), 894
Biological tests, cellular, myocardial deterioration during aortic valve replacement assessed by (Braimbridge et al.), 241
during perfusion of isolated dog heart assessed by (Darracott et al.), 247
Biopsy, cardiac, serial, diagnosis of human cardiac allograft rejection by (Caves et al.), 461
Blood cells, passenger, by cardiopulmonary perfusion in situ prior to transplantation, radioactive assessment of reduction of (Gonzalez-Lavin et al.), 133

Bronchial brushing in decision for thoracotomy, role of (Fennessy and Kittle), 541
Bronchopleural fistula, open thoracostomy drainage of postpneumonectomy empyema with (Dorman et al.), 979
Brushing, bronchial, in decision for thoracotomy, role of (Fennessy and Kittle), 541
Bypass, aorto-coronary, quantitative left ventriculography in immediate postoperative period after (Deal et al.), 1
with saphenous vein, report of case treated by: anomalous origin of left coronary artery from pulmonary artery in adult (Akhtar et al.), 112
artery, coronary, cardiac tamponade following dislodgment of left atrial catheter after (Bricker and Dalton), 636
cardiopulmonary, aid for blood pressure determinations during: ultrasonic flowmeter (Beene et al.), 12
hazard of ventricular fibrillation in hypertrophied ventricles during (Hottenrott et al.), 742
importance of calcium and magnesium ions in serum and cerebrospinal fluid during (Garcia Romero et al.), 668
and coronary perfusion, patterns of myocardial metabolism during (Isom et al.), 705
operation, aorto-coronary, on cardiac function, objective assessment of effects of (Bolooki et al.), 916

C

Calcium and magnesium ions in serum and cerebrospinal fluid during cardiopulmonary bypass, importance of (Garcia Romero et al.), 668
Cancer, lung, prognostic significance in patients with: delayed cutaneous hypersensitivity reactions to tumor cell antigens and to nonspecific antigens (Wells et al.), 557
segmental resection for: fifteen-year experience (Jensik et al.), 563
Carcinoembryonic antigen in patients with carcinoma of lung (Vincent and Chu), 320
Carcinoma, cystic, adenoid, of trachea: response to cobalt-60 (Richardson et al.), 311
of lung, carcinoembryonic antigen in patients with (Vincent and Chu), 320
small cell: clinicopathological studies (Takita et al.), 472
Carcinosarcoma of esophagus: case report and review of literature (Calhoun et al.), 315
Cardiac allograft rejection, human, by serial cardiac biopsy, diagnosis of (Caves et al.), 461
Cardiac—Cont'd
arrest, anoxic: experimental and clinical study of its effects. Part I (Iyengar et al.), 722
function, objective assessment of effects of aorto-coronary bypass operation on (Bolooki et al.), 916
injuries, penetrating, aggressive surgical management of (Bolanowski et al.), 52
operations, experience with atrial pacemaker wires implanted during (Mills and Ochsner), 878
pacemaking, internal, long-term, without frequent reoperation, comprehensive studies to achieve (Tyers et al.), 778
tamponade following dislodgment of left atrial catheter after coronary artery bypass (Bricker and Dalton), 636
wounds, penetrating: significant residual and delayed sequelae (Symbas et al.), 526
Cardiogenic shock, postcardiotomy, intra-aortic balloon assist for (Berger et al.), 906
Cardiopulmonary bypass, aid for blood pressure determinations during: ultrasonic flowmeter (Beene et al.), 12
and coronary perfusion, patterns of myocardial metabolism during (Isom et al.), 705
hazard of ventricular fibrillation in hypertrophied ventricles during (Hottenrott et al.), 742
importance of calcium and magnesium ions in serum and cerebrospinal fluid during (Garcia Romero et al.), 668
perfusion in situ prior to transplantation, radioactive assessment of reduction of passenger blood cells by (Gonzalez-Lavin et al.), 133
Cardiorespiratory failure after tetralogy correction, prolonged extracorporeal oxygenation for (Soeter et al.), 214
Cardiosurgical corrections, intraoperative evaluation of effectiveness of (Hubka et al.), 181
Carotid artery hyperperfusion during open-heart surgery: report of case (Krous et al.), 118
sinus syncope, demand pacemaker for treatment of (Ramirez), 287
Cartilages, costal, after thoracic surgical procedures, chronic infection of (Williams et al.), 592
Catheter, atrial, left, after coronary artery bypass, cardiac tamponade following dislodgment of (Bricker and Dalton), 636
occlusion, balloon, of superior vena cava, evaluation by: modified Glenn procedure (Allen et al.), 20
pacing, transvenous, permanent: six-year experience (McLaughlin et al.), 771

Catheterization, sinus, coronary, in dog, simple method of (Carlson and Utley), 639
Cell(s) antigens, tumor, and to nonspecific antigens, delayed cutaneous hypersensitivity reactions to: prognostic significance in patients with lung cancer (Wells et al.), 557
blood, passenger, by cardiopulmonary perfusion in situ prior to transplantation, radioactive assessment of reduction of (Gonzalez-Lavin et al.), 133
carcinoma, small, of lung: clinicopathological studies (Takita et al.), 472
Cellular biological tests, myocardial deterioration during aortic valve replacement assessed by (Braimbridge et al.), 241
during perfusion of isolated dog heart assessed by (Darracott et al.), 247
Cephaloridine in dogs, study of local plus parenteral administration of: evaluation of combined routes of antibiotic administration in vascular reconstructive surgery (Baker et al.), 131
Cerebral complications and electroencephalographic changes in open-heart surgery (Witoszka et al.), 855
Cerebrospinal fluid and serum during cardiopulmonary bypass, importance of calcium and magnesium ions in (Garcia Romero et al.), 668
Children, gastric tube for esophageal replacement in (Anderson and Randolph), 333
Chordae tendineae and leaflets, fresh and frozen human aortic and mitral, stress-strain characteristics of (Clark), 202
Churchill, Edward Delos (1895-1972), 153 (Obit.)
Circulation, alveolar, reverse, in patients with cyanotic congenital heart disease (Stanley and Kolff), 16
aortic, collateral, and hemodynamics in newborn animals, studies of: intrauterine production of coarctation of aorta (Haller et al.), 343
extracorporeal, drug influence on platelet loss during (Mielke et al.), 845
Circulatory arrest and surface-induced deep hypothermia, early correction of congenital heart disease with (Venugopal et al.), 375
Circumflex artery, prevention of ventricular fibrillation after ligation of (Hiatt et al.), 283
Closed-chest, anesthetized dog, reproducible model of left ventricular failure in (Von Koch et al.), 271
Closure, transaortic, of Potts anastomosis in complete repair of tetralogy of Fallot (Lansing and Haiderer), 279
Coarctation of aorta, intrauterine production of: studies of hemodynamics and collateral aortic circulation in newborn animals (Haller et al.), 343
internal, associated with double aortic arch (Raju et al.), 192
Cobalt-60, response to: adenoid cystic carcinoma of trachea (Richardson et al.), 311
Compensatory pulmonary hypertrophy after incapacitation of one lung in rat (Tartter and Goss), 147
Complex, transposition, in infancy, surgical correction of (Kilman et al.), 387
Complications, cerebral, and electroencephalographic changes in open-heart surgery (Witoszka et al.), 855
Computerized monitoring of seriously ill patients (Gerbode), 167 (Presidential Address)
Congenital aortic stenosis, progress and problems in surgical management of (Bernhard et al.), 404
coronary artery fistula (Sabbagh et al.), 794
heart disease, cyanotic, reverse alveolar circulation in patients with (Stanley and Kolff), 16
with surface-induced deep hypothermia and circulatory arrest, early correction of (Venugopal et al.), 375
lobar emphysema, dilated lymphatics in: report of second case (Hitch et al.), 127
posterolateral diaphragmatic hernias, right-sided, intrathoracic tension incarceration of stomach and liver through (Ban and Moore), 969
Coronary artery bypass, cardiac tamponade following dislodgment of left atrial catheter after (Bricker and Dalton), 636
fistula, congenital (Sabbagh et al.), 794
left, in adult, complete repair of anomalous origin of (Thomas et al.), 439
from pulmonary artery in adult, anomalous origin of: report of case treated by aorto-coronary bypass with saphenous vein (Akhtar et al.), 112
surgery without cross-clamping aorta, simple technique and device to provide bloodless operative field in (Riahi et al.), 974
vein grafts, aorto–, blocked, problem of: report of three cases with successful treatment by intraventricular arterial implants and omental grafts (Vineberg), 428
bypass, aorto-, quantitative left ventriculography in immediate postoperative period after (Deal et al.), 1

Coronary bypass, aorto—Cont'd
with saphenous vein, report of case treated by: anomalous origin of left coronary artery from pulmonary artery in adult (Akhtar et al.), 112
operation, aorto-, on cardiac function, objective assessment of effects of (Bolooki et al.), 916
perfusion and cardiopulmonary bypass, patterns of myocardial metabolism during (Isom et al.), 705
sinus catheterization in dog, simple method of (Carlson and Utley), 639
sub-, aortic stenosis in dogs, experimental model with left ventricular hypertrophy caused by (Iyengar et al.), 823
Correction(s), cardiosurgical, intraoperative evaluation of effectiveness of (Hubka et al.), 181
early, of congenital heart disease with surface-induced deep hypothermia and circulatory arrest (Venugopal et al.), 375
successful, of total anomalous pulmonary venous drainage with new surgical technique (Kawashima et al.), 959
surgical, of sinus of Valsalva aneurysm (Howard et al.), 420
of transposition complex in infancy (Kilman et al.), 387
of tetralogy of Fallot in child with cystic fibrosis (Craenen et al.), 458
tetralogy, prolonged extracorporeal oxygenation for cardiorespiratory failure after (Soeter et al.), 214
of total anomalous pulmonary venous drainage in infancy (Breckenridge et al.), 447
total, of tetralogy of Fallot, late follow-up of patients evaluated hemodynamically after (Gersony et al.), 209
of tricuspid atresia, operation for (Kreutzer et al.), 613
Correspondence
Avoidance of heart block in correction of tetralogy of Fallot (Spencer), 329
Reply to avoidance of heart block in correction of tetralogy of Fallot (Starr), 329

Dextroversion, common atrium, and total anomalous systemic venous return, successful repair of complete atrioventricular canal associated with (Danielson et al.), 817
Diaphragm pacing by radiofrequency transmission in treatment of chronic ventilatory insufficiency: present status (Glenn et al.), 505
Diaphragmatic hernias, posterolateral, congenital, right-sided, intrathoracic tension incarceration of stomach and liver through (Ban and Moore), 969
Dilated lymphatics in congenital lobar emphysema: report of second case (Hitch et al.), 127
Disc occluder of Wada-Cutter prosthesis, sudden death due to dislodgment of: case report (duPriest et al.), 93
Disease, heart, arteriosclerotic, right atrial myxoma and (Hartstein et al.), 965

Disease, heart—Cont'd
congenital, cyanotic, reverse alveolar circulation in patients with (Stanley and Kolff), 16
with surface-induced deep hypothermia and circulatory arrest, early correction of (Venugopal et al.), 375
rheumatic, results of mitral valve replacement in young patients with (John et al.), 255
Dislodgment of disc occluder of Wada-Cutter prosthesis, sudden death due to: case report (duPriest et al.), 93
Dissecting aneurysm of aorta, acute thromboembolism associated with: two case reports (Lévy et al.), 82
Drainage, thoracostomy, open, of postpneumonectomy empyema with bronchopleural fistula (Dorman et al.), 979
venous, pulmonary, anomalous, total, in infancy, correction of (Breckenridge et al.), 447
with new surgical technique, successful correction of (Kawashima et al.), 959
Drug influence on platelet loss during extracorporeal circulation (Mielke et al.), 845
Duplicator, pulse, manual, to test heart valves before implantation (Figuera Aymerich and Castillo-Olivares), 25
Dura substitute, partial replacement of pericardium with (Bonnabeau et al.), 196

Horseshoe graft, myocardial revascularization with: postoperative evaluation (Groves et al.), 622
Hyperperfusion, artery, carotid, during open-heart surgery: report of case (Krous et al.), 118
Hypertrophied ventricles during cardiopulmonary bypass, hazard of ventricular fibrillation in (Hottenrott et al.), 742
Hypertrophy, pulmonary, compensatory, after incapacitation of one lung in rat (Tartter and Goss), 147
ventricular, left, caused by subcoronary aortic stenosis in dogs, experimental model with (Iyengar et al.), 823
Hypothermia, deep, surface-induced, and circulatory arrest, early correction of congenital heart disease with (Venugopal et al.), 375
local, profound, for myocardial protection during open-heart surgery (Griepp et al.), 731

I

Immunologic, physiologic, and histologic findings, correlation of: transplantation of lung (Halasz et al.), 581
Immunosuppressive regimens, two, comparison of: correlation of radiographic, functional, and morphologic changes in baboon lung allografts (Sabanaygam et al.), 573
Implant(s), arterial, intraventricular, and omental grafts, report of three cases with successful treatment by: problem of blocked aorto–coronary artery vein grafts (Vineberg), 428
splenic and internal mammary artery, in canine hearts, functional studies of (Bloomer et al.), 222
Implantable artificial lung, development of (Palmer et al.), 521
Implantation, manual pulse duplicator to test heart valves before (Figuera Aymerich and Castillo-Olivares), 25
Implanted during cardiac operations, experience with atrial pacemaker wires (Mills and Ochsner), 878
Incapacitation of one lung in rat, compensatory pulmonary hypertrophy after (Tartter and Goss), 147
Infancy, correction of total anomalous pulmonary venous drainage in (Breckenridge et al.), 447
surgical correction of transposition complex in (Kilman et al.), 387
Infants, premature, two, delayed repair of esophageal atresia with T-E fistula in: use of jejunostomy as alternative to intravenous alimentation (Firor et al.), 828
Infarction, pre-, angina pectoris: surgical emergency (Goodin et al.), 934
Infection, chronic, of costal cartilages after thoracic surgical procedures (Williams et al.), 592
with *Mycoplasma pneumoniae* after open-heart surgery (Freeman et al.), 642
Injury(ies), cardiac, penetrating, aggressive surgical management of (Bolanowski et al.), 52
lung, penetrating, air embolism following (Thomas), 533
penetrating, aneurysm of left ventricle after repair of (Morales et al.), 632
Innominate artery from aortic arch with unique mechanism of injury, complete traumatic avulsion of: report of case (Gunnlaugsson et al.), 235
and left intrathoracic subclavian arteries, simultaneous avulsion of: case report (Thio et al.), 96
Insufficiency, aortic, repair of ventricular septal defect with (Trusler et al.), 394
mitral, associated with Fallot's tetralogy: complete surgical correction (de Salamanca et al.), 658
ventilatory, chronic, diaphragm pacing by radiofrequency transmission in treatment of: present status (Glenn et al.), 505
Internal cardiac pacemaking, long-term, without frequent reoperation, comprehensive studies to achieve (Tyers et al.), 778
coarctation associated with double aortic arch (Raju et al.), 192
mammary artery as free graft (Barner), 219
and splenic implants in canine hearts, functional studies of (Bloomer et al.), 222
Interrupted aortic arch, anastomosis of subclavian artery to descending aorta for correction of (Barbero Marcial et al.), 653
Intra-aortic balloon assist for postcardiotomy cardiogenic shock (Berger et al.), 906

Intraoperative evaluation of effectiveness of cardiosurgical corrections (Hubka et al.), 181
Intrapleural quinacrine, management with: recurrent spontaneous pneumothorax in high-risk patient (Cattaneo et al.), 467
Intrathoracic malignant schwannoma, unusual presentation of: case report and literature review (Cayten et al.), 601
Intrauterine production of coarctation of aorta: studies of hemodynamics and collateral aortic circulation in newborn animals (Haller et al.), 343
Irritability, ventricular, surgical treatment of (Mundth et al.), 943
Ischemia in treatment of aneurysms of descending thoracic aorta, reappraisal of adjuncts to avoid (Crawford and Rubio), 693
Ischemic lungs for evaluation of graft viability, metabolic changes in (Shimada et al.), 137

J

Jejunostomy as alternative to intravenous alimentation, use of: delayed repair of esophageal atresia with T-E fistula in two premature infants (Firor et al.), 828

L

Landé-Edwards membrane oxygenator during heart surgery: oxygen transfer, microemboli counts, and Bender-Gestalt visual motor test scores (Carlson et al.), 894
Leaflets and chordae tendineae, fresh and frozen human aortic and mitral, stress-strain characteristics of (Clark), 202
Ligation of circumflex artery, prevention of ventricular fibrillation after (Hiatt et al.), 283
Lipoid granuloma of lung: clinicopathologic observations (Didolkar et al.), 122
Liquid membrane oxygenator (Wallace et al.), 887
Liver and stomach through right-sided congenital posterolateral diaphragmatic hernias, intrathoracic tension incarceration of (Ban and Moore), 969
Lobar emphysema, congenital, dilated lymphatics in: report of second case (Hitch et al.), 127
Lung(s) allografts, baboon, correlation of radiographic, functional, and morphologic changes in: comparison of two immunosuppressive regimens (Sabanaygam et al.), 573
artificial, implantable, development of (Palmer et al.), 521
Lung(s)—Cont'd
cancer, prognostic significance in patients with: delayed cutaneous hypersensitivity reactions to tumor cell antigens and to nonspecific antigens (Wells et al.), 557
segmental resection for: fifteen-year experience (Jensik et al.), 563
carcinoembryonic antigen in patients with carcinoma of (Vincent and Chu), 320
injuries, penetrating, air embolism following (Thomas), 533
ischemic, for evaluation of graft viability, metabolic changes in (Shimada et al.), 137
lipoid granuloma of: clinicopathologic observations (Didolkar et al.), 122
one, in rat, compensatory pulmonary hypertrophy after incapacitation of (Tartter and Goss), 147
small cell carcinoma of: clinicopathological studies (Takita et al.), 472
transplantation of: correlation of physiologic, immunologic, and histologic findings (Halasz et al.), 581
Lymphatics, dilated, in congenital lobar emphysema: report of second case (Hitch et al.), 127

M

Magnesium and calcium ions in serum and cerebrospinal fluid during cardiopulmonary bypass, importance of (Garcia Romero et al.), 668
in open-heart surgery (Khan et al.), 185
Malignant schwannoma, intrathoracic, unusual presentation of: case report and literature review (Cayten et al.), 601
Mammary artery, internal, false aneurysm of: peristernal wiring in closure of median sternotomy (Martin et al.), 145
as free graft (Barner), 219
and splenic implants in canine hearts, functional studies of (Bloomer et al.), 222
Mannitol on performance of isolated canine heart after fibrillatory arrest, effect of (Weisfeldt et al.), 290
Marfan's syndrome, surgery of proximal aorta in (Crosby et al.), 75
Median sternotomy, peristernal wiring in closure of: false aneurysm of internal mammary artery (Martin et al.), 145
Mediastinal histoplasmosis: surgical considerations (Zajtchuk et al.), 300
tamponade after open-heart surgery (Fraser and Ullyot), 629
Mediastinoscopy and mediastinotomy, parasternal: adjuncts in diagnosis of chest disease (Jolly et al.), 549

Mediastinotomy and mediastinoscopy, parasternal: adjuncts in diagnosis of chest disease (Jolly et al.), 549
Medionecrotic aortic root, cystic, aneurysm of: modified surgical approach (Najafi), 71
Melioidosis, pulmonary, surgical treatment of (Zajtchuk et al.), 838
Membrane gas exchanger, prolonged extracorporeal respiration with (Awad et al.), 40
oxygenator, Landé-Edwards, during heart surgery: oxygen transfer, microemboli counts, and Bender-Gestalt visual motor test scores (Carlson et al.), 894
liquid (Wallace et al.), 887
Metabolic changes in ischemic lungs for evaluation of graft viability (Shimada et al.), 137
Metabolism, myocardial, during cardiopulmonary bypass and coronary perfusion, patterns of (Isom et al.), 705
Microemboli counts, oxygen transfer, and Bender-Gestalt visual motor test scores: Landé-Edwards membrane oxygenator during heart surgery (Carlson et al.), 894
Mitral and aortic leaflets and chordae tendineae, human, fresh and frozen, stress-strain characteristics of (Clark), 202
insufficiency associated with Fallot's tetralogy: complete surgical correction (de Salamanca et al.), 658
valve replacement in young patients with rheumatic heart disease, results of (John et al.), 255
Monitoring, computerized, of seriously ill patients (Gerbode), 167 (Presidential Address)
Morphologic, radiographic, and functional changes in baboon lung allografts, correlation of: comparison of two immunosuppressive regimens (Sabanaygam et al.), 573
Mycoplasma pneumoniae after open-heart surgery, infection with (Freeman et al.), 642
Myocardial deterioration during aortic valve replacement assessed by cellular biological tests (Braimbridge et al.), 241
during perfusion of isolated dog heart assessed by cellular biological tests (Darracott et al.), 247
metabolism during cardiopulmonary bypass and coronary perfusion, patterns of (Isom et al.), 705
protection during open-heart surgery, profound local hypothermia for (Griepp et al.), 731
Myocardial—Cont'd
revascularization with horseshoe graft: postoperative evaluation (Groves et al.), 622
Myocardium during aortic cross-clamping, functional and structural alterations in (Stemmer et al.), 754
Myxoma, atrial, right, and arteriosclerotic heart disease (Hartstein et al.), 965

Pacemaker(s), demand, for treatment of carotid sinus syncope (Ramirez), 287

Pacemaker(s)—Cont'd
fixed-rate and ventricular synchronous, new, long-term evaluation in large dogs and sheep of series of (Cummings et al.), 645
sites, differing, and demand pacemaking, hemodynamic effects of (Deal et al.), 454
wires, atrial, implanted during cardiac operations, experience with (Mills and Ochsner), 878
Pacemaking, cardiac, internal, long-term, without frequent reoperation, comprehensive studies to achieve (Tyers et al.), 778
Pacing, catheter, transvenous, permanent: six-year experience (McLaughlin et al.), 771
demand, sequential, A-V, temporary and permanent, surgical experience with (Fields et al.), 865
diaphragm, by radiofrequency transmission in treatment of chronic ventilatory insufficiency: present status (Glenn et al.), 505
wires, epicardial, pericardial effusion with resultant right hemothorax after removal of (Ragaza et al.), 814
Parasternal mediastinotomy and mediastinoscopy: adjuncts in diagnosis of chest disease (Jolly et al.), 549
Passenger blood cells by cardiopulmonary perfusion in situ prior to transplantation, radioactive assessment of reduction of (Gonzalez-Lavin et al.), 133
Pectoris, angina, preinfarction: surgical emergency (Goodin et al.), 934
Penetrating cardiac injuries, aggressive surgical management of (Bolanowski et al.), 52
wounds: significant residual and delayed sequelae (Symbas et al.), 526
injury, aneurysm of left ventricle after repair of (Morales et al.), 632
lung injuries, air embolism following (Thomas), 533
Perfusion, cardiopulmonary, in situ prior to transplantation, radioactive assessment of reduction of passenger blood cells by (Gonzalez-Lavin et al.), 133
coronary, and cardiopulmonary bypass, patterns of myocardial metabolism during (Isom et al.), 705
hyper-, artery, carotid, during open-heart surgery: report of case (Krous et al.), 118
of isolated dog heart assessed by cellular biological tests, myocardial deterioration during (Darracott et al.), 247
post-, pulmonary changes, influence of nature of prime on (Rabelo et al.), 782
Pericardial effusion with resultant right hemothorax after removal of epicardial pacing wires (Ragaza et al.), 814
Pericardiectomy, immediate effects of (Coleman et al.), 803
indications and results (Das et al.), 58
Pericardium with dura substitute, partial replacement of (Bonnabeau et al.), 196
Permanent and temporary A-V sequential demand pacing, surgical experience with (Fields et al.), 865
transvenous catheter pacing: six-year experience (McLaughlin et al.), 771
Persistent pneumothorax after pneumonectomy (Sharma et al.), 588
truncus arteriosus, banding of pulmonary trunk in: rapid subsequent development of inadequate pulmonary blood flow (Friedman and Braitman), 799
Physiologic, immunologic, and histologic findings, correlation of: transplantation of lung (Halasz et al.), 581
Platelet loss during extracorporeal circulation, drug influence on (Mielke et al.), 845
Pleural, intra-, quinacrine, management with: recurrent spontaneous pneumothorax in high-risk patient (Cattaneo et al.), 467
Pneumonectomy, persistent pneumothorax after (Sharma et al.), 588
post-, empyema with bronchopleural fistula, open thoracostomy drainage of (Dorman et al.), 979
Pneumothorax, persistent, after pneumonectomy (Sharma et al.), 588
spontaneous, recurrent, in high-risk patient: management with intrapleural quinacrine (Cattaneo et al.), 467
Postcardiotomy cardiogenic shock, intra-aortic balloon assist for (Berger et al.), 906
Postoperative alkalemia (Kappagoda et al.), 305
Postperfusion pulmonary changes, influence of nature of prime on (Rabelo et al.), 782
Postpneumonectomy empyema with bronchopleural fistula, open thoracostomy drainage of (Dorman et al.), 979
Potts anastomosis in complete repair of tetralogy of Fallot, transaortic closure of (Lansing and Haiderer), 279
Preinfarction angina pectoris: surgical emergency (Goodin et al.), 934
Presidential Address: Computerized monitoring of seriously ill patients (Gerbode), 167
Pressure determinations, blood, during cardiopulmonary bypass, aid for: ultrasonic flowmeter (Beene et al.), 12
Prime on postperfusion pulmonary changes, influence of nature of (Rabelo et al.), 782
Procedure, Glenn, modified: evaluation by balloon catheter occlusion of superior vena cava (Allen et al.), 20

Progress and problems in surgical management of congenital aortic stenosis (Bernhard et al.), 404
surgical—retrospection and prospection (Fleming), 599
Prosthesis, Wada-Cutter, sudden death due to dislodgment of disc occluder of: case report (duPriest et al.), 93
Pseudosarcoma of esophagus: case report (Sanchez et al.), 833
Pulmonary artery in adult, anomalous origin of left coronary artery from: report of case treated by aorto-coronary bypass with saphenous vein (Akhtar et al.), 112
allograft, right atrium-, for correction of tricuspid atresia (Stanford et al.), 105
changes, postperfusion, influence of nature of prime on (Rabelo et al.), 782
function in trauma patients, valve assembly for studying (Spitzer et al.), 607
hypertrophy, compensatory, after incapacitation of one lung in rat (Tartter and Goss), 147
melioidosis, surgical treatment of (Zajtchuk et al.), 838
trunk in persistent truncus arteriosus, banding of: rapid subsequent development of inadequate pulmonary blood flow (Friedman and Braitman), 799
venous drainage, anomalous, total, in infancy, correction of (Breckenridge et al.), 447
with new surgical technique, successful correction of (Kawashima et al.), 959
Pulse duplicator, manual, to test heart valves before implantation (Figuera Aymerich and Castillo-Olivares), 25
